Construyendo la calidad en los ejercicios de prospectiva y vigilancia tecnológica Leonel Leal Cardozo, Miriam Escobar Valencia, Henry A. Mosquera Abadía, Javier E. Medina Vásquez, Andrea Mosquera Guerrero, 2014-09-12 La discusión sobre cómo generar calidad en la reflexión y la práctica prospectiva no es un asunto resuelto es un tema necesario para brindarle seriedad y estructura conceptual y metodológica profunda a esta disciplina. Es un reto abordar esta discusión puesto que este es un momento histórico propicio en la medida en que la humanidad requiere pensamiento de largo plazo y soluciones innovadoras para afrontar con éxito macroproblemas como el cambio climático, la sostenibilidad ambiental, la convergencia tecnológica, la crisis económica y la transformación de las estructuras productivas con base en el conocimiento, la convivencia multicultural, entre otros. *El manual de innovación y sus aplicaciones* Julio Flórez Andrade, 2022-06-24 Hemos continuado investigando, analizando y comparando con nuestros diversos aliados en los diferentes estudios donde reflejaron que durante los últimos quince años hemos evidenciado que los resultados del comercio y la economía vienen en aumento de las crisis por la desaceleración y la desmejora de los ingresos o las ventas de los sectores empresariales en todos los niveles o espacios formales e informales. Donde con el fruto de estas investigaciones les entregamos las herramientas oportunas para contrarrestar estas situaciones. De igual forma ahora lo enmarcamos con esta novedosa e imprescindible publicación del Manual de Innovación y sus Aplicaciones. La Herramienta Valiosa para la Transformación y la Competitividad Empresarial para que pronto logren visibilizarse los actualizados lectores que reflejarán con sus ventajas diferenciales y de mayor productividad mejorando el ámbito competitivo desde lo local hasta lo internacional. Afortunadamente hasta aplicamos los modernos formatos e incluimos los que se requiere para que se apropien con el conocimiento y las habilidades prácticas para incrementar sus ingresos y mejorar proporcionalmente la participación en el mercado. Participaron profesionales de las universidades Pontificia Javeriana y del Valle del gobierno regional, la Secretaría de Salud de la Gobernación del Departamento del Valle y personal científico de los actores del cluster. El contenido del libro es sin duda un aporte importante para que en el inmediato futuro los actores prestadores de los servicios de salud con la articulación y colaboración de los demás actores de los diferentes niveles del cluster constituyan un cluster exportador exitoso. A la voluntad expresada por todos los actores para que ello sea así se resalta

el interés de participar del sector público regional y las universidades locales públicas y privadas Lo robusto y lo profundo que le cluster alcance a ser el futuro de una estrategia deliberada que aproveche los esfuerzos espontáneos y lo que se ha encontrado y seguir encontrando con la investigación en marcha Hay que destacar que el libro aporta una metodología importante no solamente para la construcción del mencionado cluster sino para otros clusters de bienes y servicios donde el esfuerzo colectivo se privilegia como modelo productivo El futuro del Cluster de Servicios de Salud del Valle del Cauca como agente exportador es viable dado el interés expresado por las instituciones y las personas que lo constituyen
